Dear Sir,

**What 2 major values/benefits did you get from our work which might have helped in Mains 2018 Exams ?**

1. Answer writing practice with time restrictions. Though I could not write 20 marks of GS 1 due to lack of time

but overall it was a great help through daily answer writing practice.

2. Feedbacks insisting for diagrams and flowcharts helped a lot in the real exam

3. Some of the GS3 especially Internal security questions directly from daily answer writing questions.

**What more can be done to make our courses more beneficial for you ?**

1. More often full length papers atleast weekly or within two weeks a paper or so. Rest whole answer writing system is good.

I could not write almost 30 marks (GS1 20; OPTIONAL : 10 marks). Being first timer for Mains

not able to judge the overall performance; Fingers crossed. Thank you so much for your valuable

guidance (especially when I had stopped writing answers in between) and all help you guys provided from time to time.

Thanks and Regards

Hey Team WritetobeIAS,

I am extremely happy and satisfied to have been part of your mains 2018 program. Your mentor ship was of great help and I could see that when I was writing the exam.

Positives:

- mentoring through real life experiences, stressing even the minute details( e.g.:draw diagrams using pencil :) )made a difference throughout the program
- tips ( intro, body, conclusion) and timely feedback on how we can score those extra marks compared to others

Going forward:

- weekly essay program may be for limited candidates
- may be a repository of examples, case studies, stats can be created where individuals contribute
- interview guidance program or tips
- initiatives complete freshers

Finally, I would like to convey my heartfelt thanks for all the support you have given during my preparation.

(Excuse me for the late mail :) )

Dear team,

I would like to share my experience.

Your guidance and moulding really did wonders. My presentation has improved tremendously. I enjoyed writing. I wrote intro and conclusion for all questions. Drew as many diagram as possible in pencil with box. Attempted 79 of 80 questions. Tried my best to be within the limits of question. Time management was better this time. Yeah there were few flaws in my preparation part. But no regrets, they cant be perfect. Each an every feedback you gave helped me a lot. I feel lucky that the nature brought me to you. No words are enough to express my gratitude.

I wish you the best. When time comes I wish be associated with you guys for larger welfare. I will keep you updated.

Regards
